GRAPHIT STRETCH

Application :

'Dry' and reusable posting on large billboard panels. A substrate which back is made of loops that attach to hooks bands, it guarantees a completely flat presentation across the entire surface of the panel.

Design features :

- Weight: 110g/m²
- Thickness: 380μ

Advantages :

- PVC Free
- Crease resistant and stretchable
- Flat and tight contact to panels, without folds
- Tear resistant
- Connects to "hook and loop" tape on panels
- Reusable printed skin: can be folded without marks

Availability :

Roll widths up to 3.2 m (126 in)

Ink Compatibility :

All inks must be tested for compatibility
